Long-eared Owls generally put in an appearance, too, although they're quite shy and great at hiding. After the owl walk, we'll head to the Hawk Watch site to learn how to identify raptors on the wing. At this time of year, we might witness spectacular flights of thousands of raptors! Meet at **7:30 a.m.** in the parking lot on the right side of Manitou Beach Road across from the Owl Woods trail head. The Owl Woods trails likely will be wet and muddy. **Boots are STRONGLY recommended – they're almost mandatory!**

Friday  
**WOODCOCK COURTSHIP FLIGHT AT BRADDOCK BAY BIRD OBSERVATORY**  
This will be an evening trip for woodcock courtship flight. If you've never seen this spectacle, prepare to be amazed: birds call noisily from the ground in grassy fields before spiraling rapidly up high, descending back down in a zigzagging noisy frenzy, only to start the cycle anew. An amazing sight! Following the Woodcock display, owl banding is a possibility at the banding station. We will meet at **7:00 p.m.** in the parking lot of Braddock Bay Bird Observatory, 10 Braddocks Avenue, Hilton, NY 14468. Take the Manitou Beach Road exit from Ontario State Parkway. Turn north and follow Manitou Beach Road until it forks. Take the left fork to the small dirt road (there is a sign for BBBO). The parking lot is at the end of the dirt road. Fields may be wet and muddy in spots. **Boots are STRONGLY recommended.** Bring a flashlight or headlamp.

Over 130 bird species have been observed at HANA including more than 70 that nest in the diverse habitats found there. During this field trip we expect to see at least 40 species returning to nest or on their way to northern nesting grounds. Our approximately 2 mile walk will explore about 250 acres at HANA and include some wet spots requiring ankle-high waterproof shoes or boots. We will meet at **8:00 a.m.** at the parking lot on Perinton Parkway approximately 1/4 mile east of the Waste Management offices.

**TAYLOR MARSH (Joint trip with the Bergen Swamp Preservation Society)**  
Taylor Marsh is a preserve owned by the Bergen Swamp Preservation Society and located in Ontario County north of Honeoye Lake. It is best known for marsh birds, including both American and Least Bittern and Virginia Rail. However, the star attraction is the 2-3 Sandhill Cranes that have been present in this area all year around for many years. They are occasionally heard at Taylor, although seldom seen. Taylor also has brush-shrub and wooded upland habitat with a good variety of spring migrants and breeding birds. An adjacent hay field is home to Bobolinks and meadowlarks. It has a checklist of well over 100 species, and we usually rack up 40-50 in just a couple of hours. Meet at **8:00 a.m.** at the Taylor Marsh parking area on the west side of Allen's Hill Road just south of Nighan Hill Road. From Rochester, take I-390 south to the Avon exit. Turn left onto Routes 5&20 and go east. In the town of Lima, turn right onto Route 15 A and follow it south. Turn left onto Richmond Mills Road (Livingston County Road 41). It becomes Ontario County Road 15. Follow County Road 15 past County Road 37 and turn right at the next stop sign onto Allen's Hill Road. (There is no road sign at the intersection.)

**COBBS HILL PARK**  
With spring in full swing, come to one of Rochester's best-kept birding secrets: Cobbs Hill Park's Washington Grove. Colorful warblers and other spring migrants arrive *en masse* at this urban oasis of tall stately trees. Pat will demonstrate birding by ear as we search for Yellow-rumped, Black-throated Blue, and Black-throated Green, Nashville, Black-and-white and Hooded Warblers among others. We will likely hear the flute-like Wood Thrush and see Hermit Thrushes searching the ground for food. Sparrows, orioles, and perhaps a Scarlet Tanager will make an appearance. Washington Grove is one of the best spring birding spots in the area. Meet at **8:00 a.m.** opposite the reservoir in the grassy area between the road and the woods; use the Highland Avenue entrance, just east of Monroe Avenue.  
**Leaders:** *Tom and Jeanne Verhulst 585-473-9229, Sue Robertson 585-427-2535 and Pat Martin 585-301-5485*
- May 9**  
Saturday  
***BEGINNER BIRDER TRIP* - LAKESHORE WARBLER HOTSPOTS**  
The shoreline of Lake Ontario is a haven for migrating warblers and other passerines. We will stop at several areas where these birds tend to congregate in spring. Learn the basics of identifying our most colorful migrants on this trip. We'll be looking for color patterns, song, and the distinctive behaviors to enhance identification skills with these fast-moving beauties. Several trails may be very muddy. **Waterproof boots are STRONGLY recommended!** Meet at **7:30 a.m.** at the parking lot behind Lakeview Community Church, 30 Long Pond Road in Greece (near Edgemere Drive.).

**AMY'S POND AND WOODSMITH -- GENESEE LAND TRUST / RBA JOINT TRIP**  
This is a field trip to the private property of Janet Smith for spring migrants, early nesters and waterfowl. Two adjacent easements make up 187 acres that include two large ponds, mature woodland, and open fields all within 0.5 mile of Lake Ontario. Past trips have yielded eagles, bitterns, herons, many warblers, Scarlet Tanagers, etc. We'll walk along uneven trails, so bring a walking stick if needed, and prepare for a medium-long hike in an outstanding sanctuary open only by special arrangement -- many thanks to Genesee Land Trust! Meet at **7:00 a.m.** at Webster Park on the west corner of Holt and Lake Roads, or at Amy's Pond at **7:30 a.m.** To get to Amy's Pond, take Route 104 east to County Line Road. Drive north until it ends at Lake Road. Turn right and travel approximately one mile to 484 Lake Road, Ontario, NY and turn down the long gravel driveway (on the south side of Lake Road) until you reach the marked parking area.

We'll look for warblers and other spring migrants along this level, rails-to-trails pathway in Ontario County. This well-maintained trail is an established favorite for wildlife viewing and scenic views. Wear comfortable walking shoes. At times, the weather can be fickle, but we've seen better warblers in the snow on this trip than many trips get on sunny days. Meet at **7:00 a.m.** in the Bushnell's Basin Park and Ride lot (off NY Route 96 just south of Exit 27 from I-490). Carpool arrangements may be made before we commute to the trail area parking.

Baltimore Orioles, Rose-breasted Grosbeaks, Scarlet Tanagers, Pileated Woodpeckers and Red-tailed Hawks have all nested there in the past years. The trip will continue with a visit to the BANC Sanctuary on Railroad Mills Road, where we'll walk the trails around the woodland, wetland and creek habitats. Wear waterproof, sturdy shoes and don't forget the bug spray! Meet at **8:00 a.m.** in the Owl Woods parking lot on Manitou Beach Road (Route 261) at the Lake Ontario State Parkway. **BERGEN SWAMP**  
A trip to this unique place is by special permit from the Bergen Swamp Preservation Society and will feature nesting birds. The mix of vegetation zones provides secluded nesting habitat for the usual western N.Y. species as well as those more characteristic of the Canadian zone such as Blue-headed Vireo, Hermit Thrush, Magnolia, Blackburnian, Black-and-white, Canada and Nashville Warblers. This is a walking trip of 3–5 miles on variably wet and slippery corduroy trails that must be followed closely for safety reasons and because of the fragile habitat. Sturdy boots (rather than sneakers) are **STRONGLY** recommended, and hiking or ski poles may be useful. Massasauga rattlesnakes are **VERY** rarely encountered. Parking at the trailhead is limited, so we will meet at **7:30 a.m.** in the parking lot of the 7-11 Gas Station at the junction of Routes 33 and 19. Drive about 20 miles west of Rochester on I-490 to exit 2. Turn right (west) on Route 33 and go about one mile to the junction with Route 19. **NEW!! WHITING ROAD NATURE PRESERVE**  
This preserve includes about 240 acres of land that is made up of a variety of birding habitats. This results in decent birding lists throughout the year. The trails are well marked and maintained. However, they do get muddy at times, so appropriate footwear is recommended based on the weather leading up to the trip date. Most of the trails are somewhat flat, but there definitely will be a bit of up and down trail climbing in some sections. Hopefully, our trek will take us on parts of the blue, brown, orange, and red trails. We will meet at **8:00 a.m.** in the parking lot on Whiting Road in Webster, 0.6 miles south of Lake Road.
